SHERIFF MARCO LOPEZ **ALIGNS** **HIMSELF WITH TRUMP!!** **AS HE DUMPS DEMOCRATS**

Governor Ron DeSantis suspended Monique Worrell as State Attorney for Orange and Osceola Counties who was elected by the people of both counties. She is a Democrat and DeSantis a Republican Lopez has claimed he is a Democrat. Where did DeSantis get the ammunition to get rid of

State Attorney Worrell and over throw her rightful position by the election process. It seems it was the diabolical plan of Sheriff Marco Lopez. Why? Because Monique Worrell was launching an investigation into Lopez irregularities of the Osceola Sheriff's office which included false incident reports, which is against the law.

Lopez went on the record and charged State Attorney Worrell (a Democrat) of not charging criminals, who Lopez had arrested for drug charges and other violations. Lopez had a list of about 78 violators and filed complaints with the Governor that she was soft on crime and not prosecuting drug traffickers that he was arresting.

The Governor suspended Worrell for failure to do her job.

An example of the cases was the arrest of Mary Figueroa for drug trafficking. Deputies found 10 baggies of white powder in her possession. The Deputies file was Cocaine and Fentanyl. The State tested the contents of the bags and the lab officially reported that there were no drugs in the bags. Yet Mary Figueroa's life was turned upside down. Several months later Lopez went before the press and denounced State Attorney Worrell

for letting Mary Figueroa go... Most of these cases were cited by the Governor when the Governor suspended Worrell. Then the Governor appointed Andrew Bain to replace Monique Worrell and Bain could not prosecute most of these cases due to faulty evidence, originating from reports filed by Lopez Deputies.

So, Worrell's investigation of Lopez never saw the light of day because the Lopez scheme to side track the investigation against him worked. And, Lopez duped the Governor into getting rid of Worrell for him (Lopez).

Lopez hid his own arrest record for times he was arrested. Back then, Lopez was a radio dispatcher for the Sheriff's office. Because he was an insider in the Sheriff's office as a radio dispatcher there was no real deep investigation or vetting when he applied for Deputy. This is how Lopez gained entry into the Sheriff's office. He was fired from his position as a Deputy for various violations of department regulations and then vowed to get even and ran for office. community who voted for him because he was Hispanic.

Lopez has lied more recently on a Cox radio interview about the Marilyn Soto Murder case and was caught. He must appear in December before a Judge in Osceola county

to face that charge. Angel Rojas, a retired Deputy and Captain and recipient of the medal of honor for his helicopter rescue of 87 people off the roof of a burning hotel, calls Lopez a disgrace to the Badge and a pathological liar and criminal. A Lopez former employee Amaryllis Rivera, who worked in the Sheriff's office called Lopez out publicly stating that he (Lopez) criminal history should have prevented him from ever becoming a Law enforcement official and should be removed.

Lopez played the Governor for a jerk and the Governor, like other people believed his allegations that resulted in firing State Attorney Worrell. The only way for the Governor to save face is to fire Lopez.
