

WHAT WE STAND FOR:

We all know corruption exists in our political system. Some of us have personal knowledge of corruption in our own communities. But, what happened to our freedom of the press. The press was the ultimate check against political deception and corruption. However the press has evolved into a tool of the political agenda of political parties. For example, everyone knows FOX leans strongly to the Republican party agenda and CNN leans Democratic. These two news empires are now agenda driven. So here we are, Freedom of the Press.

Orlando Commissioner Arrested for FRAUD

ORLANDO, Fla. - Hill was arrested and booked into the Orange County Jail following a 13-month-long investigation from the FDLE and an indictment from a grand jury, which revealed that Hill allegedly took advantage of a 96-year-old constituent and used \$100,000 of her money to fund vacations, medical procedures and pay her bills.

"If they're true, they're awful allegations," Orlando Mayor Buddy Dyer said on Monday. "I'm just really shocked over the course of the last week, to learn about all of this."

WHO IS REGINA HILL?: What to know about arrested Orlando Commissioner

On Monday, Gov. Ron DeSantis suspended Hill, but he added that she could return to office if exonerated.

"I think there's been a lot of buzz in that community. I think that there's a lot of problems, or a lot of concerning things with this conduct and this behavior, but that's for the courts to settle," DeSantis said during an appearance at the Greater Miami Expressway Agency.

Late Monday evening, Hill released a statement through the District 5 community email:

"As I navigate through these challenging times, I want to assure the residents of District 5 that our team's commitment to your needs and well-being stands firm. The office remains operational and fully equipped to provide the support you need, so please don't hesitate to contact them at:

District5@Orlando.Gov or by calling 407-246-2005 for any assistance.

Sheriff Marco Lopez lied/decieved the Community

Osceola County Sheriff Marcos Lopez is shown in this 2021 photo. His office apologized after a photo of a dead body was posted on Instagram.

[RICARDO RAMIREZ BUXEDA | Orlando Sentinel]

HOW DO YOU DEFINE A LIE?

By directly changing facts or hiding facts to change an outcome Lying by Omission: Lying by Omission is a deception where someone intentionally withholds important information that would change the perception or understanding of a situation. Marco Lopez held back his multiple arrest records from the Citizens of Osceola County so that they would vote for him.

Actual Arrest Mug shot on PG2 and photo of Marco Lopez by Orange County Sheriff and arrest document.

Marco Lopez, the present Sheriff of Osceola County was arrested for 2 Felony Battery charges for hitting a man in the face with a beer bottle in a bar. He was over 30 years old at the time so he was not immature or juvenile, he was an adult. Lopez assaulted the man with intent of bodily harm. He negotiated the plea down in court. But his career as a law breaker continues throughout his adult life even as a Deputy which we will continue to prove in next weeks addition of "Citizens for honest government.

LOPEZ DECIEVED COMMUNITY

Politicians and Elected officials are sworn to uphold an oath to the people they are supposed to serve. When an official commits a crime, or they tell a lie or they use the omission of facts by making an untrue statement with intent to deceive their constituents —we can surely agree and consider them to have committed a violation of the law or their oath.

Whether it's a N.Y. State House of Representative George Santos or Florida's Seminole County Tax Collector Joel Greenberg or the most recent elected official Orlando City Comm. Ms. Regina Hill for allegedly exploiting the elderly and Fraud or the Current Sheriff of Osceola County Marcos Lopez who omitted his multiple arrests by Orange County and Orlando Police making an admission of Guilt about a crime scene and then blatantly lying about the facts that he had just apologized earlier for.

In every edition of 'Citizens' we will inform and educate the public about elected officials' crimes. 'It is well known that.. The Biggest Lie is the Intentional Omission of the Facts'

As mentioned above, as an elected or appointed official - whether you tell an outright lie or omit the facts of the case or intentionally misconstrued the facts of the case — you are still in violation of the Law and your oath; and so goes the case with Sheriff Marcos Lopez. Sheriff Lopez is not what you believe him to be, say or do, and he's very good at leading the public to believe ONLY what he wants you to believe. His background can and will reveal the real Marcos Lopez. The Marcos Lopez that he truly is and the Marcos Lopez

he did not want everyone to know. We work our way back from the most recent issues to the most older issues revolving around Marcos Lopez.

Unfortunately, On February 26, 2024, 13-year-old Madeline Soto did not show up for school and was reported missing that evening. An Investigation and search are immediately initiated. On March 1, 2024, the Body of Madeline Soto is discovered by Osceola County Deputies in a deserted wooded area in Osceola County partially covered by fallen tree debris. Through a clumsy error, Marcos Lopez and the Osceola County Sheriff's Office were instructed to not record any active criteria of the crime scene, especially if it can compromise the case.

On March 2, 2024, a post by someone in the Osceola County sheriff's office violated the rules and procedures governing the posting of dead children; posted, typed, emailed, or printed and distributed; the post was somehow sent out on the Instagram page of Sheriff Marco Lopez

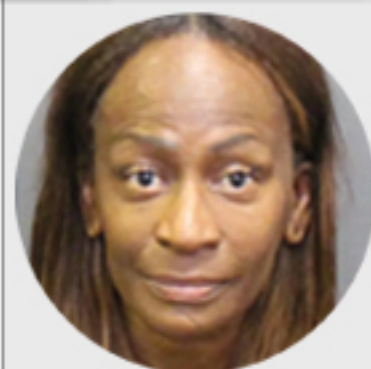

The post was immediately taken down and removed from his page, unfortunately not soon enough as the photo was out there long enough to be seen by family and friends and members of the community.

This act of negligence and unprofessionalism drew an immediate response from the family and the public as well as other Law Enforcement professionals.

The Osceola County Sheriff's Office themselves admitted the error and apologized to the family and everyone else affected by the posting.

Not 3-4 days after the apology, Radio host and personality from WDBO had the opportunity to interview Sheriff Marcos Lopez concerning the erroneous posting of the photo. To our surprise and everyone else that has seen or heard the interview - CANNOT believe Sheriff Marcos Lopez, again deliberately lies about the entire incident, stating that the photo that was posted is only of a crime scene....

Orlando Commissioner Arrested for FRAUD

CONTINUED

"My confidence in the integrity of the legal process and faith in God is unwavering, and I'm deeply moved by the support from our community. This support is a constant reminder of the strength and resilience that defines District 5, and it fuels my continued dedication to serving and uplifting every community member through these trying times. I will wait for my day in court when I'll be able to prove my innocence and that I always acted in good faith."

Hill's suspension now sets the stage for a special election in Orlando to fill the District 5 seat, which includes downtown Orlando and the communities of Parramore, Rock Lake, Malibu, Clear Lake, Ivey Lane, Lake Sunset, the Willows, the Mercy Drive Corridor, Timber Sounds, Lake Mann Homes, Demetrius Homes, Timberleaf and Metro West.
